## FULL STACK DEVELOPER

---

Seeking a challenging and rewarding position in software engineering or web development. With my strong foundation of computer science fundamentals and experience in full stack web development, I am eager to contribute to the success of a dynamic and innovative team. I am highly motivated, adaptable, and committed to continuous learning and professional development. My goal is to leverage my skills and knowledge to create meaningful and impactful solutions that improve the user experience and drive business success.

## PROJECTS

---

**Taskwave** - <https://unrivaled-starburst-959d4f.netlify.app/> 02/09/2023 – 02/24/2023

Full stack project management web app developed using the MERN stack

- Showcased proficiency in the JavaScript framework React.js implementing the front-end.
- Implemented back-end using Node.js and Express.js, displaying a strong understanding of RESTful API architecture and design.
- Used MongoDB as a database management system, integrated and utilized third-party packages such as Mongoose.
- Proficiency in implementing CRUD (Create, READ, Update, Delete) operations with MongoDB database.
- Familiarity with deployment of front-end and back-end on platforms like Heroku and Netlify.

**Streetwear-BC** - <https://sah3j.github.io/streetwear-bc/> 01/05/2023 – 01/25/2023

Full stack website for advertising, buying and selling streetwear

- Proficiency in developing and designing web applications using React.js and Tailwind CSS.
- Demonstrated skills in implementing Firebase Authentication for secure user sign-up and sign-in processes.
- Experienced in utilizing Firebase Storage and Firestore for effective database management, including CRUD (Create, Read, Update, Delete) operations with Firebase.
- Expertise in deploying web application on GitHub Pages.

## EDUCATION

---

**Vancouver Island University** - Nanaimo, BC

Bachelor of Science – Computer Science, December 2023

## TECHNICAL SKILLS

---

- Programming Languages: C++, Python, JavaScript
- Web Development: React, ES6, HTML, CSS3, Tailwind CSS, NodeJs, Express.js
- Databases: MongoDB, Firestore, SQL, NoSQL
- Tools and Platforms: Git, GitHub, VS Code, Firebase, NPM, UNIX/Linux

## WORK EXPERIENCE

---

**Staples Canada** - *Surrey, BC*

September 2018 – PRESENT

### **Technology Sales**

- Successfully identified and converted sales opportunities by establishing strong connections with customers and understanding their needs.
- Provided technical support to customers by troubleshooting and resolving issues with their computers and printers, as well as setting up new devices, which helped improve customer satisfaction and loyalty.
- Maintained company merchandising standards to ensure a visually appealing and organized store environment.
- Proactively identified opportunities for improvement and effectively communicated suggestions to management, contributing to store's overall success and growth.
